2/Exercise 1/CAMPUS TOUR  
/AABBLinkedList.h"] --> B["AABBNode.h"]; A --> C["glut.h"]; B --> D["vector"]; B --> C;
```

The diagram illustrates the file dependencies for the header file AABBLinkedList.h. It is a hierarchical structure where the main file at the top depends on AABBNode.h and glut.h. AABBNode.h, in turn, depends on the standard library headers vector and glut.h.

AABBNode.h

vector

glut.h
