

PlainNode::GetNext

```
graph LR; A[PlainNode::GetNext] --> B[PlainNode::SetData]
```

A diagram showing a call from PlainNode::GetNext to PlainNode::SetData. The first box, containing 'PlainNode::GetNext', is shaded gray and has a black border. A blue arrow points from the right side of this box to the left side of the second box. The second box, containing 'PlainNode::SetData', is white and also has a black border.

PlainNode::SetData
