

GLdouble

```
classDiagram
    class GLdouble {
    }
    class AABBBNodeXYZ["AABBBNode::XYZ"] {
    }
    GLdouble "1" *-- "1" AABBBNodeXYZ
```

The diagram illustrates a composition relationship between two classes. The top class, **GLdouble**, is represented by a white rectangle with a black border and is divided into three horizontal compartments. The bottom class, **AABBBNode::XYZ**, is represented by a gray rectangle with a black border and is also divided into three horizontal compartments. A vertical line connects the bottom of the **GLdouble** class to the top of the **AABBBNode::XYZ** class. This line features a hollow diamond at the **AABBBNode::XYZ** end, indicating a composition relationship. To the right of the vertical line, the attributes **+x**, **+y**, and **+z** are listed vertically.

+x
+y
+z

AABBBNode::XYZ
